# 1. About us

Sasol's Performance Chemicals business unit markets a broad portfolio of organic and inorganic commodity and speciality chemicals. Our business consists four key business divisions: Organics, Inorganics, Wax and PCASG (Phenolics, Carbon, Ammonia and Speciality Gases). About 6300 people (incl. employees from Regional Operating Hubs) in offices in 18 countries serve customers around the world with a multi-faceted portfolio of state-of-the-art chemical products and solutions for a wide range of applications and industries.

Our key products include surfactants, surfactant intermediates, fatty alcohols, linear alkyl benzene (LAB), short-chain linear alpha olefins, ethylene, petrolatum, paraffin waxes, synthetic waxes, cresylic acids, high-quality carbon solutions as well as high-purity and ultra-high-purity alumina. Our speciality gases sub-division supplies its customers with high-quality ammonia, hydrogen and CO<sub>2</sub> as well as liquid nitrogen, liquid argon, krypton and xenon gases.

Our products are as individual as the industrial applications they serve, with tailor-made solutions creating real business value for customers. Ongoing research activities result in a continuous stream of innovative product concepts that help our customers position themselves successfully in future markets.

Our products are used in countless applications in our daily lives to add value, security and comfort. Typical examples include detergents, cleaning agents, personal care, construction, paints and coatings, leather and metal processing, hot-melt adhesives, bitumen modification and catalyst support for automotive catalysts and other diverse specialty applications including oil and gas recovery, aroma production, plastic stabilisation, and polymer production. Every day, our researchers explore ways to improve our products and develop innovations that improve the quality of people's lives.

# 2. COSMACOL esters

COSMACOL esters are lipophilic emollients based on linear or mono-branched primary fatty alcohols. This product line includes raw materials with different skin feeling, from light to rich, and offers ingredients for a wide range of finished cosmetics. COSMACOL esters show generally good spreadability and non-greasy feel.

In addition COSMACOL ELI is also a mild body odour reducing agent which allows to lower the amount of commonly used actives in antiperspirants and deodorants. COSMACOL ELI is also used as wetting and dispersing agent in make-up.

## 2.1 COSMACOL ELI

#### INCI name: C12-13 Alkyl Lactate

COSMACOL ELI is versatile polar emollient suitable for both personal cleansing and skin care formulations. This ester exhibits some peculiar activities of lactic acid derivatives, as moisturising and mild keratolytic effect, and therefore it is suitable for skin care products targeted for different types of skin, from dry to greasy. COSMACOL ELI shows also thickening effect on SLES-Betaine system as well as anti-irritant properties and can be used for various personal care products, including lines for delicate and atopic skins.

#### **COSMACOL ELI**

# Packaging:

25 and 190 kg drums; 900 kg IBC.

#### Storage:

protect from moisture and heating sources; keep below 30° C.

#### Shelf life:

2 years from production date for product in its original sealed package.

#### Suggested dosage:

- skin care: 3–5 wt%
- deodorants: 2 wt% make-up: 5–20 wt%
  - rinse-off: 0.3–1 wt%

### 2.2 COSMACOL ECI

#### INCI name: Tri-C12-13 Alkyl Citrate

COSMACOL ECI exhibits light touch and is therefore suitable in skin care products for greasy skin where it also contributes to regulate sebum level. This ester can also be used in antiperspirant/deodorant formulations to prevent stickiness of inorganic salts. COSMACOL ECI, due to its hydrophilic groups, is used also as dispersing agent for pigments in make up products as well as for UV filters in sunscreen formulation.

#### COSMACOL ECI

Packaging: 25 and 190 kg drums

#### Storage:

protect from moisture and heating sources; keep below 30° C.

#### Shelf life:

3 years from production date for product in its original sealed package.

#### Suggested dosage:

- skin care: 3–6 wt% sun care: 3–6 wt%
- make-up: 4–15 wt% deodorants: 1–3 wt%

### 2.3 COSMACOL EBI

#### INCI name: C12-15 Alkyl Benzoate

COSMACOL EBI is highly spreading emollient providing very light touch. It is particularly suitable for sunscreen and make-up products for its ability to disperse respectively UV filters and pigments.

#### COSMACOL EBI

Packaging: 25 and 190 kg drums

#### Storage:

protect from moisture and heating sources; keep below 30° C.

#### Shelf life:

3 years from production date for product in its original sealed package.

#### Suggested dosage: • skin care: 3-5 wt% • sun care: 3-5 wt%

- hair conditioners: 1–2 wt%
  - hair sprays: 0.5–1 wt%
- lipsticks, eye pencils: 3–5 wt%
  cleansing lotions: 1–5 wt%

### 2.4 COSMACOL EMI

#### INCI name: Di-C12-13 Alkyl Malate

COSMACOL EMI shows good moisturising properties providing also benefit in treatment of aged skin as well as greasy skin where it helps to regulate sebum level. This ester provides rich texture without greasy feeling on the skin even in combination with high amount of waxy components. COSMACOL EMI is suitable also in hair care formulations improving silkiness and overall dry manageability of the hair.

#### **COSMACOL EMI**

Packaging: 25 and 190 kg drums; 900 kg IBC

Storage: protect from moisture and heating sources; keep below 30° C.

#### Shelf life:

2 years from production date for product in its original sealed package.

#### Suggested dosage:

- skin care: 3–5 wt% hair conditioners: 0.5–2 wt%
- make-up: 5–15 wt% shampoos: 0.3 wt%

### 2.5 COSMACOL ETI

#### INCI name: Di-C12-13 Alkyl Tartrate

COSMACOL ETI is a polar emollient effective as dispersing agent for inorganic pigments in make-ups thus improving overall stability of final formulation and ability to form thinner film.

This di-ester is also reliable alternative to castor oil in make up products to achieve better spreadability. COSMACOL ETI is also used in hair care products where it improves glossing effect.

# COSMACOL ETI

Packaging: 25 and 190 kg drums

#### Storage:

protect from moisture and heating sources; keep below 30° C.

#### Shelf life:

2 years from production date for product in its original sealed package.

#### Suggested dosage:

#### • skin care: 3–6 wt%

- make-up: 5–30 wt%
- shampoos: 0.2–0.5 wt%

### 2.6 COSMACOL ECL

#### INCI name: Tri-C14-15 Alkyl Citrate

COSMACOL ECL is a waxy emollient used as viscosity improver of O/W formulations. It also shows mild keratolytic effect being suitable for product for atopic skin. COSMACOL ECL can be used in make up products as lipsticks and pencils to improve stability against blooming. COSMACOL ECL is also effective in reducing the stickiness of formulations.

### COSMACOL ECL

Packaging: 25 and 100 kg drums

**Storage:** protect from moisture and heating sources; keep below 30° C.

Shelf life:

3 years from production date for product in its original sealed package.

### Suggested dosage:

• skin care: 3–5 wt%

- sun care: 2–5 wt%
- lipsticks, eye pencils: 4–10 wt%

### 2.7 COSMACOL PLG

#### INCI name: Di-C12–13 Alkyl-Tartrate; Tri-C12–13 Alkyl Citrate; Silica

COSMACOL PLG is a base for water free clear gels that can be used with both vegetable and synthetic oils. Lipogel based on this product can be prepared at room temperature by homogenisation of oily ingredients; mixture obtained can be further thickened by glycols or additional silica.

#### **COSMACOL PLG**

Packaging: 25 kg drum
